Deutscher Zentralverein
homöopathischer Ärzte

In cooperation with

WissHom

Wissenschaftliche Gesellschaft für Homöopathie
Scientific Society for Homeopathy

WELCOME TO LEIPZIG

We have invited experienced experts to report on a number of clinical pictures and discuss the different approaches of conventional medicine and of homeopathy, but also of naturopathy, anthroposophy and of Ayurveda.

We therefore want and need to always cooperate with other medical disciplines as well. This is why we demand and why we practice medical collaboration – for the benefit of the patient.

Angelika Gutge-Wickert
Medical Doctor and Pharmacist
Congress President
