

The background of the slide is a light gray gradient with several realistic water droplets of various sizes scattered across it. The droplets have highlights and shadows, giving them a three-dimensional appearance. The main title is centered in the upper half of the slide.

TREATMENT OF BULLOUS PEMPHIGOID. THE HOMEOPATHIC APPROACH.

DR. IRINA KUZMINA

*CLASSIC HOMEOPATHIC CLINIC
NAMED AFTER S. HAHNNEMANN
MOSCOW, RUSSIAN FEDERATION*

BULLOUS PEMPHIGOID

- ▶ SYNONYMS: NEOCANTHELIC PEMPHIGUS, LEVER BULLOUS PEMPHIGOID
- ▶ THIS IS A BENIGN TUMOR CHRONIC DECEASE, AND THE BASIC ELEMENT IS A SUBEPIDERMAL BLISTER, WHICH IS FORMED WITHOUT AKANTHOSIS
- ▶ ETHIOLOGY IS UNKNOWN
- ▶ MAINLY TYPICAL FOR ELDERLY PATIENTS OVER 60 YEARS OLD
- ▶ CHRONICAL DECEASE, MAY LAST FOR YEARS. THE PATIENT MAY OVERCOME, BUT THE LETHAL OUTCOME IS POSSIBLE
- ▶ USUAL TREATMENT IS: CORTICOSTEROIDS, CYTOSTATICS

BULLOUS PEMPHIGOID

- ▶ THE DISEASE STARTS WITH APPEARANCE OF BLISTERS ON THE ERYTHEMATOUS, DIAMETER 1–2 CM, WITH A TIGHT TENSE COVER AND SEROUS OR SEROUS AND HEMORRHAGIC FILLING. AFTER DISSECTION AND DRYING, THE YELLOW–AND–BROWN CRUSTS OF DIFFERENT THICKNESS ARE FORMED.
- ▶ THE LESION FOCUSES MAY BE LARGE, IN 20–40% OF CASES THEY INVOLVE THE MUCOUS MEMBRANE. LARGE BLISTERS OF 5–10 CM WITH EXTENDED EROSIVE SURFACE SOMETIMES APPEAR.
- ▶ THE RUSH IS USUALLY FOLLOWED BY ITCHING OF DIFFERENT INTENSITY, PAIN AND BURNING.

FIRST VISIT 06.07.2010.

▶ THE PATIENT 80 YEARS OLD.

▶ CLINICAL DIAGNOSIS:

CHRONIC OBSTRUCTIVE BRONCHITIS. CHD:
ATHEROSCLEROSIS, CARDIOSCLEROSIS,
CEREBROSCLEROSIS. DIFFUSIVE BOULLOUS
DERMATOSIS. BULLOUS PEMPHIGOID.

ANAMNESIS MORBI

- ▶ IN WINTER 2010 THE SKIN BECAME ITCHY WITH LITTLE PAPULES, WHICH LATER TURNED INTO PEA-SIZE BLISTERS WITH IRRESISTABLE ITCHINESS.
- ▶ SOON AFTERWARDS THE PATIENT WAS OPERATED BECAUSE OF CERVICAL HIP FRACTURE AND HIS RIGHT HIP JOINT WAS REPLACED. COURSES OF ANTIBIOTICS WERE PRESCRIBED BEFORE AND AFTER THE OPERATION
- ▶ THE SKIN CONDITION GOT EXTREMELY WORSE AFTER THE OPERATION, THE BLISTERS EXPANDED ALL OVER THE BODY : EARS, ARMS, NECK, LEGS, FEET, MOUTH. A LARGE BLISTER IN RECTUM HAD TO BE OPERATED AS IT WAS DIFFICULT TO COMPLETE THE DEFECATION.
- ▶ THE SKIN ITCHING TURNED INTO BURNING, WITH AGGRAVATION AT NIGHT TIME. THE PATIENT CONSTANTLY ASKED FOR COOL APPLICATIONS OVER THE BODY WITH WATER MIXED WITH ALCHOHOL. HE USED TO SIT UP, MOAN AND LOSE SLEEP AT ALL.
- ▶ THE PATIENT WANTED TO COMMIT SUICIDE BY JUMPING OUT OF THE WINDOW BECAUSE OF CONSTANT ITCHING.

ANAMNESIS MORBI

- ▶ THE PATIENT VISITED THE LEADING DERMATOLOGISTS IN MOSCOW. TOOK IN THE HORMONES, HORMONE CREAMS, ANTIBIOTICS.
- ▶ DURING THE LAST TWO MONTHS THE PATIENT HAD FEVER WITH HIGH TEMPERATURE UP TO 38–39 C DAILY AFTER 6 P.M. AND IT LASTED DURING THE WHOLE NIGHT.
- ▶ *THE GENERAL BLOOD TEST: LEUKOCYTE 22 000/MCL, EOSINOPHILS -56%, ESR-44 MM/HOUR*
- ▶ HE TOOK: DEXAMETHASONE 0,5 MG/DAY, CLARITINE, FLIXOTIDE, FORADIL.

COMPLAINTS

- ▶ WEAKNESS, STAYING WHOLE DAY IN BED, INCLUDING EATING AND TOILET.
- ▶ FEELS COLD, RESTRICTED TO OPEN DOORS/WINDOWS TO LET FRESH AIR INSIDE.
- ▶ COULD NOT SLEEP AT NIGHT DUE TO SEVERE ITCHING, OFTEN WOKE UP AFTER 1-2 A. M.
- ▶ HE HAD A BRIEF SLEEP AT DAY TIME.
- ▶ THERE WAS A BLACK LINE IN THE MIDDLE OF THE TONGUE.
- ▶ SEVERE EDEMA OF FEET, BURNING AND PAINS IN LOWER PARTS OF LEGS, ITCHING OF EYELIDS.
- ▶ IN THE EVENINGS SHIVERING STARTS, THEN THE BODY TEMPERATURE RISES AND THE PATIENT ASKS FOR HOT TEA. HE USED TO SWEAT, THE ITCHING BECAME WORSE BECAUSE OF SWEAT.
- ▶ CONSTIPATION. VERTIGO WHEN GETTING UP FROM BED, HEARTBURN AFTER EATING.

SYMPTOMS FOR REPERTORIZATION

- ▶ MIND- SUICIDAL DISPOSITION- THROWING- WINDOWS, FROM

THE COURSE OF TREATMENT

- ▶ *THE PATIENT TOOK ARSENICUM ALBUM IN Q-POTENCY FOR 2,5 MONTHS.*
- ▶ *HE STARTED TO WALK WITH A STICK, FEELS ALMOST NO PAINS IN LEGS, LESS ITCHING, BETTER SLEEP AT NIGHT. FEVER UP TO 37,5–38 C AFTER 6 P.M. TILL 10 P.M.*
- ▶ *AFTER 2,5 MONTHS ARSENICUM ALBUM 12C TWICE A DAY WAS PRESCRIBED FOR TWO MORE MONTHS UP TO NOV 16, 2010.*

▶ *The body temperature turned to normal. The blisters became smaller, the itching lessened, but it turned to be better from hot baths and hot hair dryer.*

▶ The tongue color changed from black to yellow and sometimes the tongue was clean.

▶ Paronychia appeared on all the fingers.

▶ No new blisters on the body. The feet are still swelling, no itching, sometimes burning in lower legs.

LIST OF OLD AND NEW SYMPTOMS

- ▶ EXTREMITIES- SWELLING - FOOT
- ▶ EXTREMITIES- PAIN - BURNING - LOWER LEGS
- ▶ GENERAL SYMPTOMS- COVER - BETTER - DESIRE,

THERAPY COURSE

- *THE REMEDY WAS CHANGED TO RHUS-TOX IN Q-POTENCY, THEN MOTHER*
TINCTURE AVENA SATIVA 5 DROPS IN THE EVENING.
 - *20.01.2011 WE OBSERVED THAT SLEEP - CHANGEABLE, SOMETTIMES*
UNEXPECTED SHORT CHILLS. AT DAY TIME HE SLEEPS WELL AND A LOT.
 - HE WALKS WITHOUT A STICK, WATCHES TV, ACTIVE IN DISCUSSIONS,
HAS A GOOD APPETITE.
 - 3 WEEKS WITHOUT HORMONES.
 - ITCHING STILL BECOMES BETTER AFTER HOT AIR AND HOT WATER.
- ▶ HIS BLOOD TEST: L - 13,8 EOSINOPHILS-55, ESR - 38MM/4AC,
HB - 8,8, ER. - 3,4
- ▶ TREATMENT WAS CONTINUED WITH RHUS-TOX IN Q-POTENCY.

THE END OF TREATMENT

▶ In February 2011 г. He had an acute bronchitis with fever 38, received **Bryonia 12 C** 3 times a day for 7 days.

▶ In the end of treatment he took several times **Psorinum 30, Sulphur 200, 1M, 1M** as a nosodes–remedies, because at a young age the patient had scabies, which was threatened with hormones and hormone creams, and their symptoms were present.

▶ In Autumn 2011 the patient was released, but under doctor's control.

▶ At the moment the patient's skin is normal, sleep and appetite is good.

▶ He does not take hormones. Periodically he took Foradil.

▶ The last blood test is normal.

▶ Catamnesis is 6 years

CONCLUSION

This case clearly demonstrates the effectiveness of the homeopathic method in the treatment of severe skin pathology with a septic course.

Before homeopathy, the patient repeatedly took courses of antibiotics and hormones with aggravation of the disease.

Due to homeopathic treatment it became possible to cancel hormones and almost all pulmonary inhalers.

This case is yet another proof that homeopathy is not a placebo, it is an effective and mild therapy for various diseases, even of the most serious.

The background of the slide is a light gray gradient. In the top-left and bottom-right corners, there are several realistic-looking water droplets of various sizes, some overlapping. The droplets have highlights and shadows, giving them a three-dimensional appearance.
